

SQD 3-Tip & J hook - Build Sheet

Visuals

Diagram A: Rack Assembly

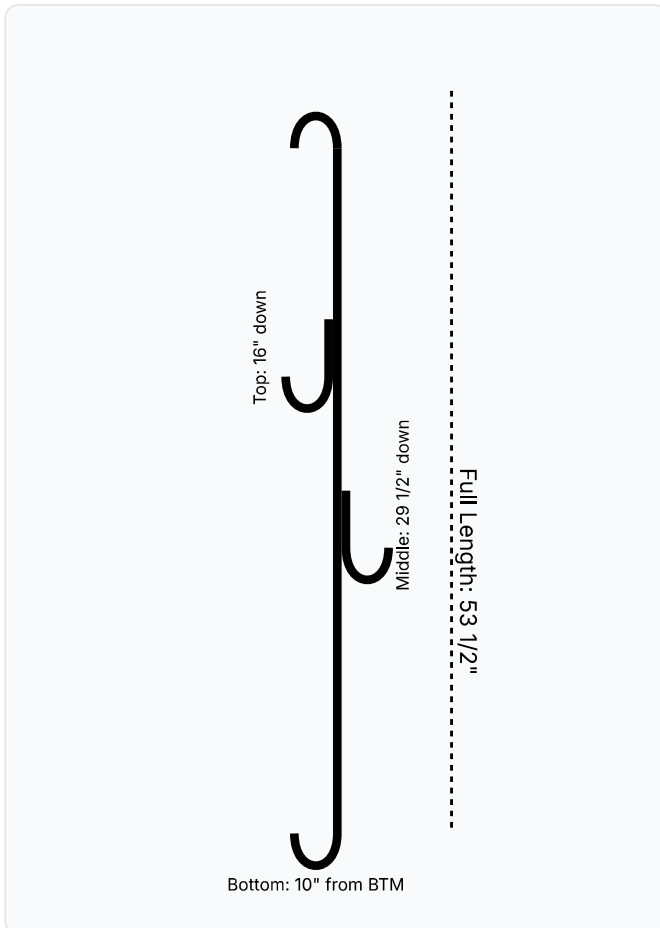

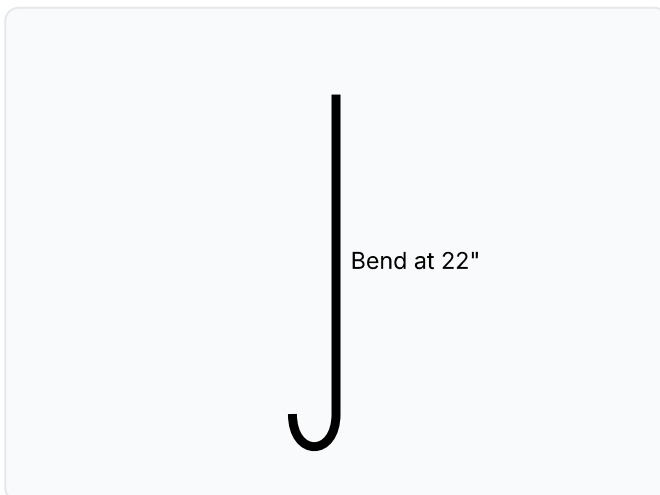

Diagram B: Overall Shape

Materials & Cuts

- **Main Rod:** 3/4" rod
- **Full Length:** 53 1/2"

Instructions

- 1 **Form Main Rod:** Take the 3/4" rod and form the main J-shape as shown in 'Diagram B', making the main bend at 22" from the top.
- 2 **Add Top Hook:** Form and weld the hanging hook to the top of the main rod. Refer to 'Diagram A' for final placement.
- 3 **Add Side Hooks:** Form and weld the two side J-hooks onto the main rod at the specified locations, ensuring they are on alternating sides.

Hook Spacing

- **Top Hook:** 16" down from top
- **Middle Hook:** 29 1/2" down from top
- **Bottom Hook:** 10" up from bottom
